CryoSauna

Xtreme-Cold-Response Therapy

Health

"IT HELPS! ... You have less swelling..., less chemicals are released into the joint space, and less aches and pains overall. It also affects the nerves."

Dr. Oz about the cryogenic chamber therapy on his show on January 20th, 2011

"Cold therapy has profound analgesic effects. I use it to treat sports injuries, inflammatory rheumatic diseases, degenerative diseases and all manner of chronic painful conditions... There are also huge psychological benefits. It can ease depression and insomnia, and has good effects on stress."

Dr Georg Kettenhuber, treats world class athletes in his clinic in Austria

"I have had seven sessions of Cryosauna and I can attest to a sharp increase in my energy. I also notice a difference in my sleep. Fatigue is not as pronounced as it was before."

Jan Guest, Dallas, Texas

*Works best in combination with other
physiotherapeutic treatments recommended
by your doctor. CryoSauna therapy can
lead to medication reduction and
is surprisingly economical.*
